Our commitment is to get you back up and running with minimal delay.

COMMITMENT

Ensuring exceptional workmanship is our foremost priority.

We've established a continuous quality improvement program to enhance our service offerings.

Constantly refining our repair and rebuilding capabilities to meet client needs, we are committed to excellence in Rotary Airlock repairing and rebuilding.

DMS pledges to deliver unparalleled, fast, and reliable service to our clients, every single time.

DMS
DIRECT MAINTENANCE SERVICES

SERVICE

DMS has earned an outstanding reputation by providing the highest quality of service in the Rotary Airlock Repair field, by offering our customers minimal downtime and quality service.

All impellers, casing and rotors are given a preliminary examination and evaluation which includes failure analysis, metallurgical testing, wear and deterioration analysis to determine the cause and extent of the damage and the course of correction as well as an estimated cost and time.
